--	--	---	--

— DRIVER TRAINING

Detail

The course proposed is a half day in duration for up to 20 attendees.

— DRIVER TRAINING

Workshop

All workshop and seminar content can be bespoke, selected from the below list of existing modules or a combination of the two as required. Each module lasts around 15-30 minutes which ensures that it is fast paced and interesting for all.

All workshops are delivered in a fun and interactive manner using a variety of media including PowerPoint, video, break out groups and a variety of vehicle and road related props.

To further the 'relevance' to all drivers it is always good to include the 'Open Forum' section that discusses 'actual' scenarios that the group's members have experienced.

— DRIVER TRAINING

— DRIVER TRAINING

Summary

This training is suitable for all drivers as content is tailored to suit the audience.

In addition, many clients' couple up a ½ day workshop with one or more of the available practical training courses to make up a full day's learning programme. Choose from on road training, skid car, emergency reaction training, Fuelsave or many others.

— DRIVER TRAINING

Who Is This For?

Workshops and seminars are designed for any staff who drive frequently or irregularly. These can be used to reinforce a current safety message or on going training. Our workshops are ideal for staff who do not require in-vehicle training or to support a practical in-vehicle training programme.

— DRIVER TRAINING

Outcome

A full and detailed training record will be produced post workshop / seminar for the attendees.
